MEMORANDUM FOR THE RECORD

SUBJECT: Special One Week EUR Operations Course

1. On 14 October, I called on [REDACTED] Chief of Operations, EUR to discuss the subject course which was scheduled for 2 - 6 November. He was most cooperative and stated that the schedule looked good but that he wished to discuss it with the Chief, EUR to see if he desired any changes. He promised to call me by Friday, 15 October regarding any changes that might be suggested.

2. On Thursday, 14 October Mr. [REDACTED] Training Officer for EUR telephoned and stated that he would like the course delayed until May, as most of the personnel who should take the course were presently in language training, and would not be finished until April. A check with our registrar revealed that there were only six students from EUR registered for the November course and in addition, one grade 14 from FE Division, one grade 6 from CA Staff and one grade 8 from RID. It is doubtful that the latter two would be qualified to take the course. Accordingly a memorandum was prepared for the Director of Training, recommending that the November running of the course be cancelled. Mr. [REDACTED] was notified of this action, and concurred.

3. I informed Mr. [REDACTED] that it would be impossible to schedule the course in May because of other commitments, but that it was already scheduled for 8 - 12 March 1971. He replied that this was better than the November date but that several candidates for the course would still be in Language School. I informed him that every effort would be made to advance the date for the running of the course.

4. A check with ISS revealed that it would be possible to get Room 1A-07 from 5 - 9 April. Mr. [REDACTED] was informed of this and stated that this would be much better, than the March date. The room has been reserved and the March course rescheduled.
